SUMMARY

Computer Science Engineering student (CGPA 9.72/10.0) with hands-on experience across 6 internships and multiple AI-integrated full-stack projects built on the MERN stack. IEEE 1st Prize winner and Sage Excellence Award recipient, with a strong foundation in data structures, algorithms, and scalable web application development.

EDUCATION

Sage University, Bhopal — B.Tech, Computer Science Engineering CGPA: 9.72/10.0
Sept 2024 – Aug 2027 (Expected) | Coursework: DSA, OOP, DBMS, OS, Computer Networks, Web Technologies, Cloud Computing

TECHNICAL SKILLS

Languages: JavaScript, Python, Java, TypeScript, SQL, HTML5, CSS3

Frameworks & Tools: ReactJS, Node.js, Express.js, MongoDB, MySQL, REST APIs, Git, Docker, Kubernetes, CI/CD, Agile

Cloud & AI: Google Cloud Platform, Generative AI, OpenAI API Integration

INTERNSHIPS

- **CodeAlpha** — Full Stack Development Intern (MERN): Built 3 responsive web apps achieving 95% cross-browser compatibility; reduced API response time by 40% through query optimization.
- **Navodita Infotech** — Web Development Intern (ReactJS): Developed 5+ reusable frontend components, increasing page load speed by 30%, while collaborating with a 4-member team to deliver client projects ahead of schedule.
- **Nolan Edutech Private Limited** — Project Management Intern: Coordinated 8 technical events reaching 500+ participants and managed stakeholder relationships across 12 academic institutions.
- **AICTE EduSkills Internship** — Google Android Developer: Completed hands-on training in Android application development and mobile UI design under the Google-AICTE skilling program.
- **Labmentix** — Frontend Development Intern: Built and styled responsive UI components for live client projects using modern frontend development practices.
- **Flutter Flirt** — Frontend Developer Intern: Implemented UI features and ensured cross-device responsiveness across web pages.

PROJECTS

AI-Integrated Lab Manual Submission Portal | MERN Stack [GitHub](#) | [Vercel](#)

- Automated lab-manual submission & tracking platform; cut manual processing by 80% and misplacement by 20%

MockMate AI | MERN Stack, OpenAI API [GitHub](#) | [Vercel](#)

- AI-powered interview prep tool serving 250+ users with NLP-based feedback, 85% evaluation accuracy

Smart Helpdesk Solution for IT Services | MERN Stack, AI Integration [GitHub](#) | [Vercel](#)

- AI-assisted IT ticketing platform automating categorization and resolution tracking

AI-Integrated Resume Builder | ReactJS, Node.js, OpenAI API [GitHub](#) | [Vercel](#)

- Full-stack builder generating ATS-friendly resumes with AI-assisted content suggestions

Admin Panel for Service Form | ReactJS, Node.js, MongoDB [GitHub](#) | [Vercel](#)

- Admin dashboard for service-form submissions with data analytics views for business insights

LEADERSHIP & ACHIEVEMENTS

- 1st Prize – IEEE International Conference Technical Poster Competition (2025)
- Sage Excellence Award – Best Academic Star Award (Top 5% of cohort)
- National Recognition – Top 20 Artwork Selection, National-Level Exhibition
- Participant – AMD Slingshot Hackathon | Sage External Event Participation Award

CERTIFICATIONS

Python Essentials 1 & 2 (Cisco) • Intro to Generative AI (Google Cloud) • Node.js Bootcamp (LetsUpgrade) • ReactJS Bootcamp (LetsUpgrade) • Node.js Complete Course (Traversy Media) • Full Stack Development 101 (Simplilearn) • Intro to MERN Stack (Simplilearn) • Top Full Stack Developer 2026 (WsCube Tech)
